§4-2 Specifications for

All traffic-control signs, signals, and devices shall conform to the specifications approved by the state highway commissioner pursuant to NDCC §39-13-06. All signs and signals required hereunder for a particular purpose shall so far as practicable be uniform as to type and location throughout the city. All traffic-control devices so erected and not inconsistent with the provisions of state law or this article shall be official traffic-control devices.

§4-3 Traffic-control signal legend

The provisions of NDCC §39-10-05 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

Whenever traffic is controlled by traffic-control signals exhibiting the words "Go", "Caution", or "Stop", or exhibiting different colored lights successively one at a time or with arrows, the following colors only shall be used and said terms and lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

1. Green alone or "Go",
 - a. Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right of way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited; and
 - b. Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.
2. Yellow alone or "Caution" when shown following the green or "Go" signal:
 - a. Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter and such vehicular traffic shall not enter or be crossing the intersection when the red or "Stop" signal is exhibited; and
 - b. Pedestrians facing such signal are thereby advised that there is insufficient time to cross the roadway, and any pedestrian then starting to cross shall yield the right of way to all vehicles.
3. Steady red indication:

- a. Vehicular traffic facing a steady red signal alone shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then before entering the intersection and shall remain standing until an indication to proceed is shown, except as provided for in subdivision b of this subsection.
 - b. Except when a sign is in place prohibiting a turn, vehicular traffic facing a steady red signal may cautiously enter the intersection to turn right, or to turn left from a one-way street into a one-way street, after stopping as required by subdivision a of this subsection. Such vehicular traffic shall yield the right of way to pedestrians lawfully within adjacent crosswalk and to other traffic lawfully using the intersection.
 - c. Unless otherwise directed by a pedestrian-control signal as provided for in §4-5, pedestrians facing a steady red signal alone shall not enter the roadway.
4. Red with green arrow:
- a. Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow but shall yield the right of way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection;
 - b. No pedestrian facing such signal shall enter the roadway unless he can do so safely and without interfering with any vehicular traffic.
5. In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line, or, if none, before entering the crosswalk on the near side of the intersection, or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.
 - b. Flashing yellow (caution signal). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

2. This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules as set forth in §8-5.

§4-5 Pedestrian control signals

The provisions of NDCC §39-10-06 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

1. "Walk": Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles; and

2. "Don't Walk": No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the walk signal shall proceed to a sidewalk or safety island while the "Don't Walk" signal is showing.

§4-6 Designation of walks, lanes, etc.

The city engineer or any person shall when authorized by the governing body:

1. Designate and maintain, by appropriate devices, marks or lines upon the surface of the roadway, crosswalks at intersections where there is particular danger to pedestrians crossing the roadway, and at such other places as directed by the governing body.

2. Establish safety zones of such kind and character and at such places as may be deemed necessary for the protection of pedestrians as determined by the governing body.

3. Mark traffic lanes upon the roadway of any street or highway where a regular alignment of traffic is necessary. Where such traffic lanes have been marked, it shall be unlawful for the operator of any vehicle to fail or refuse to keep such vehicle within the boundaries of any such lane except when lawfully passing another vehicle or preparatory to making a lawful turning movement or performing other lawful traffic movements.

§4-7 Obedience to and required traffic-control devices

The provisions of NDCC §39-10-04 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

2. No provision of this chapter for which traffic-control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a state statute

does not state that devices are required, such statute shall be effective even though no devices are erected or in place.

3. Whenever official traffic-control devices are placed in positions approximately conforming to the requirements of this title, such devices shall be presumed to have been so placed by the official act or direction of lawful authority, unless the contrary shall be established by competent evidence.

4. Any official traffic-control device placed pursuant to the provisions of this title and purporting to conform to the lawful requirements pertaining to such devices shall be presumed to comply with the requirements of this title, unless the contrary shall be established by competent evidence.

§4-8 Unauthorized signs

No person shall place, maintain, or display upon or in view of any street any unauthorized sign, signal, marking, or device which purports to be or is in imitation of or resembles an official traffic control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic-control device or any railroad sign or signal.

1. Twenty miles an hour when approaching within fifty feet of a grade crossing of any steam, electric, or street railway when the driver's view is obstructed. A driver's view shall be deemed to be obstructed when at any time during the last two hundred feet of his approach to such crossing he does not have a clear and uninterrupted view of such railway crossing and of any traffic on such railway for a distance of four hundred feet in each direction from such crossing;
2. Twenty miles an hour when passing a school during school recess or while children are going to or leaving school during opening or closing hours;
3. Twenty miles an hour when approaching within fifty feet and in traversing an intersection of highways when the driver's view is obstructed.  - c. In charging a violation of the provisions of this section, the complaint shall specify the speed at which the defendant is alleged to have driven and the speed which this section prescribes shall be prima facie lawful at the time and place of the alleged offense.

§5-3 When Local Authorities May or Shall Alter Maximum Speed - Limits - Signs Posted

The provisions of NDCC §39-09-03 and all subsequent amend-

ments shall be and are hereby incorporated by reference in this ordinance.

1. Whenever the City, on the basis of an engineering and traffic investigation, determines that the maximum speed permitted under this title is greater or less than is reasonable and safe under the conditions found to exist upon a highway or part of a highway, the City may determine and declare a reasonable and safe maximum limit thereon which:

- a. Decreases the limit at intersections;
- b. Increases the limit within an urban district but not to more than fifty-five miles per hour; or
- c. Decreases the limit outside an urban district, but not to less than thirty-five miles per hour.

2. The City shall determine by an engineering and traffic investigation the proper maximum speed for arterial streets and shall declare a reasonable and safe maximum limit thereon which may be greater or less than the minimum speed permitted under this chapter for an urban district.

3. Any altered limit established as hereinabove authorized shall be effective at all times or during hours of darkness or at other times as may be determined when appropriate signs giving notice thereof are erected upon such street or highway.

4. Any alteration of maximum limits on state highways or extensions thereof in the municipality shall not be effective until such alteration has been approved by the state highway commissioner.

5. Not more than six such alterations as hereinabove authorized shall be made per mile along a street or highway, except in the case of reduced limits at intersections, and the difference between adjacent limits shall not be more than ten miles per hour.

§5-5 Minimum Speed limits

The provisions of NDCC §39-09-09 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

1. No person shall drive a motor vehicle at such a slow speed as to impede the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

2. Whenever the state highway commissioner and the superintendent of the highway patrol, acting jointly, or the City, determine on the basis of an engineering and traffic investigation that slow speeds on any highway or part of a highway impede the normal and reasonable movement of traffic, the commissioner and

superintendent or the City may determine and declare a minimum speed limit below which no person shall drive a vehicle except when necessary for safe operation or in compliance with law, and that limit shall be effective when posted upon appropriate fixed or variable signs.

§5-6 Regulations of Speed by Traffic Signals

The city traffic engineer or authorized person may regulate the timing of traffic signals so as to permit the movement of traffic in an orderly and safe manner at speeds slightly at variance from the speeds otherwise applicable within the district or at intersections and shall erect appropriate signs giving notice thereof.

Any person who violates this section shall be assessed a fee of forty dollars.
2. As used in this section:
 - a. "Drag race" means the operation of two or more vehicles from a point side-by-side by accelerating rapidly in a competitive attempt to cause one vehicle to outdistance the other; or the operation of one or more vehicles over a common selected course from the same point to the same point for the purpose of comparing the relative speed or powers of acceleration of such vehicle or vehicles within a certain distance or time limit.
 - b. "Exhibition driving" means driving a vehicle in a manner which disturbs the peace by creating or causing unnecessary engine noise, tire squeal, skid, or slide upon acceleration or braking; or driving and executing or attempting one or a series of unnecessarily abrupt turns.
 - c. "Race" means the use of one or more vehicles in an attempt to outgain, outdistance, or to arrive at a given distance ahead of another vehicle or vehicles; or the use of one or more vehicles to willfully prevent another vehicle from passing the racing vehicle or vehicles, or to test the physical stamina or endurance of the persons driving the vehicles over a long distance driving route.
3. Nothing in this section shall be construed as prohibiting drag racing, exhibition driving, or similar events when carried out in an organized manner on a track or other privately owned area specifically set aside and used solely for such purposes by drivers of motor vehicles, including snowmobiles.

§5-8 Radar Evidence in Speed Violations

The provisions of NDCC §39-03-15 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

The speed of any motor vehicle may be checked by the use of radiomicro waves or other electrical device. The results of such checks shall be accepted as prima facie evidence of the speed of such motor vehicle in any court or legal proceedings where the speed of the motor vehicle is at issue. The driver of any such motor vehicle may be arrested without a warrant under this section, provided the arresting officer is in uniform or displays his badge of authority; provided that such officer has observed the record of the speed of such motor vehicle by the radiomicro waves or other electrical device, or has received a radio message from the officer who observed the speed of the motor vehicle recorded by the radiomicro waves or other electrical device.

VI. Article VI - Turning Movements

2. Left turns on two-way roadways. At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the center line thereof and by passing to the right of such center line where it enters the intersection and after entering the intersection the left turn shall be made so as to leave the intersection to the right of the center line of the roadway being entered. Whenever practicable the left turn shall be made in that portion of the intersection to the left of the center of the intersection;

3. Left turns on other than two-way roadways. At any intersection where traffic is restricted to one direction on one or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle and after entering the intersection the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left-hand lane lawfully available to traffic moving in such direction upon the roadway being entered, and;

4. The City may cause markers, buttons, or signs to be placed within or adjacent to intersections and thereby require and direct that a different course from that specified in this section be traveled by vehicles turning at an intersection, and when markers, buttons, or signs are so placed no driver of a vehicle shall turn a vehicle at an intersection other than as directed and required by such markers, buttons, or signs.

No person shall so turn any vehicle without giving an appropriate signal in the manner hereinafter provided in the event any other traffic may be affected by such movement;

2. A signal of intention to turn right or left when required shall be given continuously during not less than the last one hundred feet traveled by the vehicle before turning; and

3. No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided herein to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

The driver of a vehicle approaching a yield sign shall in obedience to such sign slow down to a speed reasonable for the existing conditions and, if required for safety to stop, shall stop at a clearly marked stop line, or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it. After slowing or stopping, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection or junction of roadways. Provided, however, that if a driver is involved in a collision with a vehicle in the intersection or junction of roadways after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of his failure to yield the right-of-way.

- b. A crossing gate is lowered or when a human flagman gives or continues to give a signal of the approach or passage of a railroad train;
- c. A railroad train approaching within approximately one thousand three hundred and twenty feet of the

highway crossing emits a signal audible from such distance and such railroad train, by reason of its speed or nearness to such crossing, is an immediate hazard; or

2. No person shall drive any vehicle through, around, or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed. The provisions of NDCC §39-10-42 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

The state highway department and the City, with respect to highways under their respective jurisdiction, are hereby authorized to designate particularly dangerous highway grade crossings of railroads and to erect stop signs thereat. When an obstruction exists making it necessary to drive to the left of the center of the highway; provided, any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;
- c. Upon a roadway divided into three marked lanes for traffic under the rules applicable thereon; or
- d. Upon a roadway restricted to one-way traffic.

2. Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn in an intersection or into a private road or driveway.

3. Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic-control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes, or except as permitted under subdivision b of subsection 1 hereof. However, this subsection shall not be construed as prohibiting the crossing of the center line in making a left turn into or from an alley, private road, or driveway.

The provisions of NDCC §39-10-13 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable, and in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet of any approaching vehicle.

- b. When approaching within one hundred feet of or traversing any intersection or railroad grade crossing, or
- c. When the view is obstructed upon approaching within one hundred feet of any bridge, viaduct, or tunnel.

2. Where signs or markings are in place to define a no-passing zone as set forth in subsection 1, no driver shall at any time drive on the left side of the roadway with such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

2. Upon a roadway which is divided into three lanes and provides for two-way traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle

traveling in the same direction when such center lane is clear of traffic within a safe distance, or in preparation for making a left turn or where such center lane is at the time allocated exclusively to traffic moving in the same direction that the vehicle is proceeding and such allocation is designated by official traffic-control devices.

3. Official traffic-control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway and drivers of vehicles shall obey the directions of every such device.

2. The driver of any truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another truck or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a truck or motor vehicle drawing another vehicle from overtaking and passing any vehicle or combination of vehicles; and

3. Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade whether or not towing other vehicles shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. If the person appears at the time scheduled in the citation, he may make a statement in explanation of his action, and the official may at that time, in his discretion, waive, reduce, or suspend the statutory fee or bond, or both. If the person cited follows the foregoing procedures, he shall be deemed to have admitted the violation and to have waived his right to a hearing on the issue of commission of the violation. The bond required to secure appearance before the official designated in the citation shall be identical to the statutory fee established by §20-8. Within ten days after forfeiture of bond or payment of the statutory fee, the official having jurisdiction over the violation shall certify to the licensing authority:

2. If the official finds that the person had committed the traffic violation, he shall notify the licensing authority of that fact, and whether the person was driving more than nine miles per hour in excess of the lawful limit, stating specifically the miles per hour in excess of the lawful limit, if charged with a speeding violation, within ten days of the date of the hearing. The fact that a person has admitted a violation, or has, in any proceeding, been found to have committed a violation, shall not be referred to in any way, nor be admissible as evidence in any court, civil, equity, or criminal, except in an action or proceeding involving that person's driving license or privilege.

3. a. If a person is aggrieved by a finding that he committed the violation, he may, without payment of a filing fee, appeal that finding to the district court for trial anew, and the case may be tried to a jury, if requested. Notice of appeal under this subsection shall be given within thirty days after a finding of commission of a violation is entered by the official. Oral notice of appeal may be given to the official at the time that he adjudges that a violation has been committed. Otherwise, notice of appeal shall be in writing and filed with the official, and a copy of the notice shall be served upon the city attorney or state's attorney, as the case may be. An appeal taken under this subsection shall not operate to stay the reporting requirement of subsection 3 of this section, nor to stay appropriate action by the licensing authority upon receipt of that report.
- b. The district court, upon application by the appellant, may:
 - (1) Order a stay of any action by the licensing authority during pendency of the appeal, but not to exceed a period of one hundred twenty days;

An application for a stay or temporary certificate under this subdivision shall be accompanied by a certified copy of the appellant's driving record, for the furnishing of which the licensing authority may charge a fee of two dollars. Any order granting a stay or a temporary certificate shall be forwarded forthwith by the clerk of court to the licensing authority, which shall issue a temporary certificate in accordance with the order in the manner provided by law. A court shall not make a determination on an application under this subdivision without notice to the appropriate prosecuting attorney. A person who violates or exceeds the restrictions contained in any temporary restricted driving certificate issued pursuant to this subdivision shall be guilty of a traffic violation and shall be assessed a fee of twenty dollars.

- c. If the person charged is found not to have committed the violation by the district court or the jury, the clerk of court shall report that fact to the

licensing authority immediately. The city attorney shall prosecute the appeal.

4. The city must prove the commission of a charged violation at the hearing or appeal under this section by a fair preponderance of the evidence. Upon an appeal under subsection 4, the court and parties shall follow, to the extent applicable, the North Dakota Rules of Civil Procedure. If on the appeal from the finding of the official the finding is affirmed, costs may be assessed at the discretion of the trial judge.

Karen Stiller, Auditor

6. Except as hereinafter provided, a person may not operate an all-terrain vehicle without having in possession a valid driver's license or permit.

7. When an all-terrain vehicle is operated within the right of way of any road, street, or highway, during times or conditions that warrant the use of lights by other motor vehicles, the all-terrain vehicle must be operated in the same direction as the direction of other motor vehicles traveling on the side of the roadway immediately adjacent to the side of the right of way traveled by the all-terrain vehicle.

8. A person may not operate an all-terrain vehicle within the right of way of any highway while towing a sled, skid, or other vehicle, unless the object towed is connected to the all-terrain vehicle by a hinged swivel and secure hitch.

Section 28-4 - Operation of persons under age sixteen. Except as otherwise provided in this section, a person under sixteen years of age who is not in possession of a valid operator's license or permit to operate an all-terrain vehicle may not, except upon the lands of the person's parent or guardian, operate an all-terrain vehicle. A person at least twelve years of age may operate an all-terrain vehicle if the person has completed an all-terrain vehicle safety training course prescribed by the director of the state parks and recreation department and has received the appropriate all-terrain vehicle safety certificate issued by the commissioner. The failure of an operator to exhibit an all-terrain vehicle safety certificate on demand to any official authorized to enforce this article is presumptive evidence that that person does not hold such a certificate.
